5 May 2023

Dear Ms Fryčová,

I am very pleased to inform you that on 26 April 2023 in Bergen, Norway, following a recommendation of the EAZA Membership & Ethics Committee, EAZA Council has accorded Zoopark Chomutov **EAZA Accreditation** and continued **Full Membership** of the European Association of Zoos and Aquaria. It is my very pleasant duty to congratulate you on this achievement.

The Membership & Ethics Committee based its recommendation on the screening mission to your institution in June 2022, and additional information provided in response to the screening report in March 2023. This shows that you are clearly meeting EAZA Standards and your commitment to education and the conservation of native species, the zoo's spacious setup and its focus on Palearctic species are particularly notable and are a model for the community. We are confident that your institution will continue to work towards further improvement, to ensure long-term compliance with the continuously developing EAZA Standards and policies.

Again, my congratulations on achieving EAZA Accreditation. We look forward to continuing good cooperation with you and the team at Zoopark Chomutov.

Yours sincerely,

Endre Papp  
Chair of the European Association of Zoos and Aquaria
